

Steps to LEAD SAFE Renovation, Repair and Painting

Do you renovate, repair or paint homes or child-occupied facilities built before 1978? If so, you need to know how to work safely with lead-based paint. This guide is designed to help plan for and complete a home renovation, repair or painting project using lead safe work practices. Lead safe work practices are a group of techniques that reduce the amount of dust produced by renovation activities. When used correctly, they make the work area safer for workers and the home safe for residents when renovation is complete.

Last updated on August 10, 2020.
