Federal Housing Programs ^[1]

This brochure was prepared by Idaho Legal Aid Services, Inc. for the purpose of informing tenants of their rights and responsibilities in federal housing programs under current Idaho and federal law. It does not include other legal theories which have been adopted by other states but as yet not accepted by Idaho's courts. At several points in the brochure, the tenant is advised to seek legal assistance of an attorney. It is especially important to tenants in federal housing programs because of certain additional rights they have that are not available to other tenants and because there are frequent changes in the law of federal housing programs.
