## **I Want Help Creating a Fair Housing Document** <sup>[1]</sup>

This section includes sample forms, letters, and other documents that will be useful to those interested in exercising their rights under the Fair Housing Act. These examples can help guide a consumer when she needs to communicate a request to her housing provider. It is always a good idea to send written communications of this nature by certified mail and to keep a copy of the document for your own files.

Links to more information are available by clicking on the tabs above.
