## How NCIC Can Help Victims

- ❑ Can be extremely useful for victims of criminal identity theft
- ❑ NCIC Identity Theft File “flags” stolen identities
- ❑ Provides identifying information to recognize imposters when they are encountered by law enforcement.
- ❑ Contains records of both the ID theft victim and any information known about the perpetrator

## How Does it Work?

- ❑ An NCIC Identity Theft File record is created
- ❑ It is available nationwide to police officers
- ❑ During a subsequent encounter with law enforcement, a query into the NCIC system automatically searches the Identity Theft File
- ❑ The officer will receive a response including the victim profile and password.
- ❑ **Can prevent arrests of criminal ID theft victims!**
- ❑ Currently, the Identity Theft File consists of approximately 2,600 records entered by 29 states.
